Eisenberg introduced the line of decorative cosmetics Les Essentiels du Maquillage. The collection combines high-tech innovations with a new perspective on the Butie world. Les Essentiels du Maquillage is a perfect blend of leaving and makeup. The means take care of the skin and immediately emphasize your beauty and individuality.

The collection of Les Essentiels du Maquillage includes 6 agents that make the skin naturally beautiful, the eyes - expressive, and the lips - gentle and moist.

Face

Smoothness in 30 seconds? Easy! Perfecteur Teint Express Makeup Primer will prepare your skin for further makeup application and provide Photoshop effect for the whole day. The gentle emulsion is easily applied to the skin, moisturizes, hides all imperfections and gives a velvet finish. The product can be used either separately or as a tonal base and makeup.

The Fond De Teint Correcteur Invisible is an excellent addition to the primary. The light texture with innovative ingredients does not feel on the face, gives a healthy appearance and glow. The effect of the perfect second skin is guaranteed to you.

Eye

As we know the eyes are the mirror of the soul, so it is important to choose the right products that will make the eyes expressive and sensual. Good mascara as well as proper care will help to achieve this effect.

The Le Mascara Noir mascara with the molecular duo of seaweed stimulates eyelash growth and reduces damage. Thanks to the unique formula and the elastic cheek, your eyelashes become voluminous and long.

Lips

A new generation of Baume Fusion balm with a cream-like texture moistens and protects the soft skin of the lips. Cherry extract, safflower oil and vitamin E.

The product is presented in 4 shades: Nacarat, Cardinal, Naturel and Haussman.
