# THIS GOLD MASK PROMISES TO MAKE THE EYE CONTOUR MORE RADIANT THAN PRECIOUS METALS

Masque Ultralift Or is the latest release by Eisenberg Paris. Gold is one of the protagonists of its formula, which acts on the signs of aging, promising to leave the eye contour firmer and rejuvenated.

In 2023, it looks like Eisenberg Paris has become something of a Midas. Legend has it that this figure from Greek mythology turned everything he touched into gold – and that's exactly what the French brand did with Masque Ultralift Or, the latest eye mask whose formula has gold as the protagonist.

With a hybrid texture, the famous gel-cream, this new mask was designed to be applied over the eye contour, a very sensitive area of the face which is naturally thinner and devoid of collagen. Gold, known for its anti-aging and antioxidant properties, joins collagen-enhancing peptides, high molecular weight hyaluronic acid and, of course, the patented Molecular Trio, packed with enzymes and other molecules that prevent aging.

It is a case to say that the results seem to be icing on the cake, as all these ingredients work together to regenerate and revitalize the eye contour area, providing a lifting effect and leaving it looking healthier, firmer and more radiant. . And Eisenberg promises that the results are visible from the first application.

In order to experience the results first hand, there are some steps that you cannot neglect. For example, you should use the mask in the morning or at night, using the brush that comes with the product. If you want to use it intensively, you can apply it daily for five minutes

for 14 days. However, you also have the option of using it twice a week for 15 minutes for a period of one month.
