

# The new EISENBERG proposals for a beauty routine of extreme well-being

All the brand's advice to best respond to the needs and well-being of the skin

## How to optimize daily skin care

The use of face masks is essential to include in your beauty routine at least once a week to protect the skin from external aggressions and to give it specific benefits. By applying the mask, the skin is pampered through self-massages that give immediate well-being, ease tension, stimulate blood circulation, tone the muscles, reduce and subsequently eliminate all impurities and toxins. The result? Relaxed, glowing skin and a free, confident and serene mind.

## A mask for every skin type

Depending on the quality of the skin, you have to buy the mask that best suits your needs and the desired results. For tired skins we recommend Masque Tenseur Remodelant, able to smooth the skin, reduce wrinkles and tighten pores. Masque Fondant Reparateur with an antioxidant, anti-aging and protective action is perfect for sensitive skin.

Then again, for dry and dehydrated skin, Masque Hydratation Totale is an option, considered a real hydration bath for the epidermis. This special gel is able to hydrate, rebalance the pH and best soothe the skin. Finally, combination skins will opt for Masque Purifiant, which tightens pores and absorbs sebum thanks to a purifying and regulating action.
